**Fayette County Road in Bad Shape**

Two miles of bad road in the extreme southwestern corner of Fayette county is causing much concern among six counties and two states, as it prevents the general use of 30 miles of good road on the Memphis side and about 30 miles on the Mississippi side, according to T. B. King, good roads movement leader, who says the good roads association is struggling to improve the road in its entirety. It is a very important one to Memphis, Mr. King says, and if the bad stretch can be made passable will mean that much traffic by truck will follow, merchants of Mississippi being then able to come to Memphis for their goods and haul it through the country.

Fayette county, owing to the location of the road, would not be materially benefited by putting it in good condition. Mr. King says, although several of the magistrates have indicated they would favor the county grading it for other sections of the state that need it.

**TRY THIS FOR ECONOMY**

"Conserving," "Economy" and "Thrifty" are the present-day watchwords and well they may be. Are you conserving your health? Are you economical in buying treatment for disease? You should be! If your stomach, liver, kidneys, bowels and blood are not right in every sense, you should at once begin a treatment to restore good, healthy conditions. Sulphur, cream of tartar and herb extracts in a sugar-coated form, called Superbaccres is the surest relief that is economical. Get them in sealed tubes from druggists. Sulphurb is the name—not "sulphur." Mrs. J. J. Devlin, 618 West 152d St., New York city, writes: "I would also like to say I find your Sulphurb Tablets Q. K. and am very much pleased to recommend to all my friends, etc."

**IF KIDNEYS AND BLADDER BOTHER**

Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually comes coming out and you can't find any dandruff. Help your hair to grow strong, thick and long and become soft, glossy and twice as beautiful and abundant.

**HAIR SOON TOO SHORT TO DO UP**

A Little "Danderine" Stops Your Hair Coming Out and Doubles Its Beauty.
